Minors on Adults courses

Adult Courses are understood to be those courses designed for, marketed and sold to and delivered to adult learners.

Whilst being fundamental and highly effective as a teaching method, one must understand the ramifications of having minors and adults interacting in such a close-quarter environment. Within the scope of the protection of minors IELS highly discourages the combination of these age gaps.

Should parents wish their children to attend Adult courses the following procedures/requirements are to be met:

No minors below the age of 16 can be accepted on Adult courses.

1.) The legal guardian of the student has to sign the **Registration Form (MJA2).**

2.) Minors accepted on adult courses (i.e. 16 & 17-year olds) are to have **signed parental consent (MJA2).** This consent form must make parents aware of the course content.

3.) Minors on Adult courses are subject to daily attendance checks and must fully adhere to the **Rules and Regulations** for minors, including but not limited to the consumption of alcohol and **curfew times**. These rules must be made available for signature to the guardians **before arrival**. All documents must be signed and received prior to arrival and course commencement.

4.) Minors with IELS accommodation must have **the Mater Dei** document signed by the legal guardians.

5.) Copy of the **identity documents or passport** of the student and the student's legal guardians.

6.) The mixing of Adults and Minors in the same accommodation is strictly prohibited unless:

-The adults are legal guardians of the minors

-The adults are siblings of the minors **AND** parental consent is provided

Minors on accommodation not provided by the school.

The booking of minors on own accommodation should always be discouraged. Minors who are booked on any IELS course (adult or YL) who are not booking accommodation provided and supervised by the school can only do so if the parents provide a **notarised** letter which outlines the following:

1. Free and Indemnify the company and Head of School from 'Loco Parentis' out of school premises.

2. Take on responsibility for the actions and behaviour of their child(ren).

3. Understand that supervision is not possible.

4. Do so against the recommendation of the school.

-The above letter must also be:

- In English or Officially translated
- Singed by all legal guardians (not just one)
- Singed and hold the official stamp of the Notary/Lawyer
- Be accompanied by Passport Copies of all guardians
- Sent to the school before arrival (not with the minor)
